# Independent Auditor's Report on Financial Statements and Supplementary Information

Board of Education Decatur School District No. 61 Decatur, Illinois

#### **Report on the Financial Statements**

We have audited the accompanying basic financial statements and related notes of Decatur School District No. 61 (District), Decatur, Illinois, as of and for the year ended June 30, 2018, as listed in the table of contents, pages 5 through 22.

We have also audited the financial statements of the governmental activities, discretely presented component units, each major fund and the aggregate remaining fund information of Decatur School District No. 61, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. These basic financial statements are not presented as part of this Annual Financial Report form; however, these basic financial statements should be read in conjunction with this report.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with regulatory provisions prescribed by the Illinois State Board of Education, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. This also includes determining that the regulatory provisions are acceptable for the current circumstances.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse audit opinion.

#### **Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles**

As described in the notes to these financial statements, the District prepared these financial statements in accordance with regulatory provisions prescribed by the Illinois State Board of Education, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. They are intended to assure effective legislative and public oversight of school district financing and spending activities and accountable Illinois public school districts. In addition, these financial statements do not include the financial data of the District's component units as required by accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in the notes to these financial statements and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

#### Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Decatur School District No. 61 as of June 30, 2018 or changes in its financial position for the year then ended.

#### Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the assets and liabilities arising from cash transactions of the funds and account groups of Decatur School District No. 61 as of June 30, 2018, and the revenue received and expenditures disbursed of its funds for the year then ended, on the basis of accounting described in notes to these financial statements.

#### Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The accompanying financial information, listed as Supplementary Schedules and Statistical Section, pages 23 through 25 and 27 in the table of contents, and the attached section entitled Student Activity Funds, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole. The accompanying financial information on pages 26 and 28 through 32 listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basis financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2018, on our consideration of Decatur School District No. 61's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

### Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance With *Government Auditing Standards*

Board of Education Decatur School District No. 61 Decatur, Illinois

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the basic financial statements and related notes as listed in the table of contents of Decatur School District No. 61 (District), as of and for the year ended June 30, 2018, and have issued our report thereon dated October 18, 2018, which expressed an adverse opinion because the financial statements were prepared on a regulatory basis of accounting and omit certain component units required to be included under generally accepted accounting principles as stated in our report. However, the basic financial statements were found to be fairly stated on the cash basis of accounting, in accordance with the regulatory provisions prescribed by the Illinois State Board of Education, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### Note 1: Nature of Operations and Summary of Significant Accounting Policies

#### Nature of Operations

Decatur School District No. 61 (District) is a community unit school district organized under the Illinois School Code for the purpose of providing a public education to the children of Decatur.

#### The Financial Reporting Entity

These financial statements include only the financial data of Decatur School District No. 61. Generally accepted governmental accounting principles require that the financial statements include the financial data of Decatur School District No. 61 and all entities for which it is financially accountable (component units). It has been determined that Macon-Piatt Special Education District, established under a joint agreement involving several school districts, is a component unit of Decatur School District No. 61. In addition, the Decatur Public Schools Foundation is a component unit of the District. Decatur School District No. 61 administers the district, approves the district's budget, and has ultimate authority over the districts' operations. The omission of the discrete presentation of the financial data of these component units results in an incomplete presentation of these financial statements.

Condensed financial statements for each of the component units is included below. Complete financial statements of the individual component units can be obtained from the following:

Macon-Piatt Special Education District

Macon-Piatt Special Education District 335 East Cerro Gordo Decatur, Illinois 62523

Decatur Public Schools Foundation

#### **Basis of Presentation – Fund Accounting**

The accounts of the District are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net assets/position, cash receipts, and cash disbursements. The District maintains individual funds required by the State of Illinois. The various funds are summarized by type in the financial statements. These funds are grouped as required for reports filed with the Illinois State Board of Education. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following fund types and account groups are used by the District:

#### **Governmental Fund Types**

Governmental Funds are those through which most governmental functions of the District are financed. The acquisition, use, and balances of the District's expendable financial resources and the related liabilities are accounted for through governmental funds. The financial statements, which focus on the measurement of spending and the determination of changes in financial position rather than upon net income determination, reflect cash-basis accounting.

The Educational Fund, Operations and Maintenance Fund, Tort Immunity/Judgment Fund and Working Cash Fund are the general operating funds of the District. They are used to account for all financial resources except those required to be accounted for in another fund. Special Education is included in these funds. The Tort Immunity/Judgment Fund accounts for financial resources to be used for tort immunity or tort judgment purposes. The Working Cash Fund accounts for financial resources held by the District to be used for temporary interfund loans to other funds.

The Transportation Fund and the Illinois Municipal Retirement/Social Security Fund are used to account for the proceeds of specific revenue sources (other than those accounted for in the Debt Services Fund, Capital Projects Fund or Fire Prevention and Safety Fund) that are legally restricted to expenditures for specified purposes.

The Debt Services Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

The Capital Projects Fund accounts for financial resources to be used to finance a capital project, capital lease or lease purchase agreement.

The Fire Prevention and Safety Fund accounts for financial resources to be used for the acquisition or construction of major capital facilities.

#### **Fiduciary Fund Types**

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations or other governments.

The Student Activity Funds and Other Agency Funds account for assets held by the District as an agent for other organizations. These funds are custodial in nature and do not involve the measurement of the results of operations. The financial statements reflect the amounts due to organizations equal to the assets owned.

#### General Fixed Assets and General Long-Term Debt Account Groups

The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus.

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group, rather than in Governmental Funds.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the Governmental Funds.

The two account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations.

#### Governmental and Expendable Trust Funds - Measurement Focus

The financial statements of all governmental and fiduciary funds focus on the measurement of spending or "financial flow" and the determination of changes in financial position, rather than upon net income determination. This means that only current assets and current liabilities are generally included on their statements of assets, liabilities and net position arising from cash transactions. Their reported fund balance (net current assets) is considered a measure of "available spendable resources." Governmental fund operating statements present increases (cash receipts and other financing sources) and decreases (cash disbursements and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

#### Fund Balance (Net Position) Reporting

In accordance with government accounting standards, fund balances are to be classified into five major classifications; Nonspendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance. The regulatory provisions prescribed by the Illinois State Board of Education, followed by the District, only reports Reserved and Unreserved Fund Balances. Below are definitions of the differences and a reconciliation of how these balances are reported.

#### Nonspendable Fund Balance

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

The District purchases certain inventories of goods that are stored at a warehouse facility until needed at individual schools. At June 30, 2018, inventories totaling \$102,905 were on hand. This balance is included in the financial statements as unreserved in the Educational Fund.

#### Restricted Fund Balance

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Things such as restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue, Debt Service, Tort, Capital Projects, and Fire Prevention and Safety Funds are by definition restricted for those specified purposes. The District has several revenue sources received within the different funds that also fall into these categories.

1. Special Education

Cash receipts and the related cash disbursements of this restricted tax levy are accounted for in the Educational Fund. Expenditures disbursed exceeded revenue received for this purpose, resulting in no restricted fund balance.

2. Leasing Levy

Cash disbursed and the related cash receipts of this restricted tax levy are accounted for in the Educational Fund. Expenditures disbursed exceeded revenue received for this purpose, resulting in no restricted fund balance.

3. State Grants

Proceeds from state grants and the related expenditures have been included in the Educational, Operations and Maintenance, Transportation, and Capital Projects Funds. At June 30, 2018, expenditures disbursed exceeded revenue received from state grants, resulting in no restricted balances.

4. Federal Grants

Proceeds from federal grants and the related expenditures have been included in the Educational, Operations and Maintenance, Transportation, and Municipal Retirement/Social Security Funds. At June 30, 2018, expenditures disbursed exceeded revenues received from federal grants, resulting in no restricted balances.

5. Social Security

Cash disbursed and the related cash receipts of this restricted tax levy are accounted for in the Municipal Retirement/Social Security Fund. Revenues received exceeded expenditures disbursed for this purpose, resulting in a restricted fund balance of \$1,682,346. This balance is included in the financial statements as reserved in the Municipal Retirement/Social Security Fund.

6. School Facility Occupation Tax

Cash receipts and related cash disbursements of this restricted tax are accounted for in the Debt Service Fund and Capital Projects Fund. At June 30, 2018, the District had received cash receipts, including bond proceeds, in excess of disbursements totaling \$2,005,763. This amount is included in the Debt Service Fund and Capital Projects Fund as unreserved.

7. Food Service

Revenue and related expenditures of the food service program are accounted for in the Educational Fund. A portion, \$866,373, of this Fund's equity represents the excess of cumulative revenue over cumulative expenditures which is restricted for use in future food service program expenditures. This balance is included in the financial statements as reserved in the Educational Fund.

8. Workers Compensation

The District has chosen self-insurance for workers' compensation by membership in the Illinois Association of School Boards – Sponsored Workers' Compensation Self-Insurance Trust. For the year ended June 30, 2018, accident claims of \$652,600 were paid with \$1,445,576 of actuarially-determined incurred but not reported claims. At June 30, 2018, \$1,445,576 is included in the Tort Immunity/Judgment Fund's fund balance to cover these claims. This balance is included in the financial statements as reserved in the Tort Immunity/Judgment Fund.

#### Committed Fund Balance

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the School Board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

The School Board commits fund balance by making motions or passing resolutions to adopt policy or to approve contracts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

By Board action, the District has committed to performing \$506,073 in construction projects during the next fiscal year. These balances are included in the financial statements as unreserved in the Operations and Maintenance Fund.

Employee contracts for services rendered provide for the carryover of certain unpaid vacation time. At June 30, 2018, the total amount of unpaid vacation time for services performed amounted to \$694,738. These balances are included in the financial statements as unreserved in the Educational Fund (\$507,923), Operation and Maintenance Fund (\$176,843), Tort Immunity/Judgment Fund (\$6,081) and Transportation Fund (\$3,891).

The District has a lease through 2022 for one-to-one classroom technology. At June 30, 2018, the total obligations under the agreement amounted to \$1,262,648. This balance is included in the financial statements as unreserved in the Educational Fund.

#### Assigned Fund Balance

The assigned fund balance classification refers to amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted or committed. Intent may be expressed by (a) the School Board itself or (b) the finance committee or by the Superintendent when the School Board has delegated the authority to assign amounts to be used for specific purposes.

#### Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for amounts in the General Operating Fund for amounts that have not been restricted, committed, or assigned to specific purposes within the General Fund. Unassigned Fund Balance amounts are shown in the financial statements as unreserved Fund Balances in the Educational, Operations and Maintenance, Capital Projects and Working Cash Funds.

#### Regulatory - Fund Balance Definitions

Reserved Fund Balances are those balances that are reserved for a specified purpose, other than the regular purpose of any given fund. Unreserved Fund Balances are all balances that are not reserved for a specific purpose other than the specified purpose of a fund.

#### Reconciliation of Fund Balance Reporting

The following table represents fund balance reporting in accordance with the accounting principles generally accepted in the United States of America and under the regulatory basis of accounting utilized in preparation of these financial statements.

#### Expenditures of Fund Balance

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

#### **Basis of Accounting**

Basis of accounting refers to when receipts and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The District maintains its accounting records for all funds and account groups on the cash basis under guidelines prescribed by the Illinois State Board of Education. Accordingly, revenue is recorded when cash is received and expenditures are recorded when checks or cash are disbursed. Only assets representing a right to receive cash arising from a previous payment of cash are recorded as assets of a fund. In the same manner, only liabilities resulting from previous cash transactions are recorded as liabilities of a particular fund.

Cash-basis financial statements omit recognition of receivables and payables and other accrued and deferred items that do not arise from previous cash transactions.

The District's financial statements reflect modifications to the cash basis of accounting. These modifications are for advances, the employer portion of payroll taxes not deposited with taxing authorities, health insurance, overpayments due and recording of inventory.

Proceeds from sales of bonds are included as other financing sources in the appropriate fund on the date received. Related bond principal payable in the future is recorded at the same time in the General Long-Term Debt Account Group.

#### **Budgets and Budgetary Accounting**

The District prepares a budget for all individual funds within the Governmental Fund types.

The District's budget is prepared so that budgeted receipts and expenditures can be compared to the cash basis of accounting. The budget was passed on September 26, 2017.

For each fund, total fund expenditures may not legally exceed the budgeted expenditures. The budget lapses at the end of each fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- 1. The Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted at a public meeting to obtain taxpayer comments.
- 3. Prior to October 1, the budget is legally adopted through passage of a resolution.
- 4. The Board of Education is authorized to transfer up to ten percent of the total budget between items within any fund.
- 5. Formal budgetary integration is employed as a management control device during the year.
- 6. The Board of Education may amend the budget by the same procedure as provided for in the original adoption.

#### **Investments**

Investment balances, which consist of money market funds or pooled separate accounts, are stated at cost, which approximates fair value. Assets of the different funds are commingled for investment purposes, and interest earnings are prorated back to the various funds when recognized as revenue. The District has established accounts with the Illinois Funds (IF) and Illinois School District Liquid Asset Fund Plus (ISDLAF) for investment of funds. IF was established to supplement and enhance the investment opportunities available to custodians of public agency funds throughout the State. The management, custodianship, and operation of the IF are under the supervision of the State, Office of the Treasurer. ISDLAF was established to provide investors with a high yield investment alternative while maintaining liquidity and preserving capital. Realized and unrealized gains and losses are reflected in the statement of operating receipts, operating disbursements, and changes in net assets/position arising from cash transactions.

The District has adopted a formal written investment and cash management policy.

#### **General Fixed Assets**

General fixed assets have been acquired for general governmental purposes. At the time of purchase, assets are recorded as current expenditures in the Governmental Funds and capitalized at cost in the General Fixed Assets Account Group, except that property and equipment purchased prior to July 1, 1961, is stated at depreciated cost values as determined by expert appraisal. Donated general fixed assets are stated at estimated fair value as of the date of acquisition.

The District maintains a formal capitalization policy and follows grant guidelines when applicable.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

No depreciation has been provided on fixed assets in these financial statements. The Illinois State Board of Education's Annual Financial Report Form includes depreciation of \$3,230,908 which has been utilized for the calculation of the per capita tuition charge, and accumulated depreciation totaling \$70,276,734. Depreciation has been computed over the estimated useful lives of the assets using the straight-line method.

The estimated useful lives are as follows:

| Asset Class                    | Estimated<br>Useful Lives |
|--------------------------------|---------------------------|
| Buildings                      | 50 years                  |
| Land and building improvements | 20 years                  |
| Equipment                      | 5 to 10 years             |
| Transportation Equipment       | 5 years                   |

#### Inventories

Inventories are stated at moving-average cost which approximates cost on a FIFO basis. Inventories consist of goods received and stored in warehouse facilities until needed at individual schools.

### Note 2: Deposits, Investments and Investment Income

#### **Deposits**

Custodial credit risk is the risk that, in the event of a bank failure, a governments' deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law allows for deposits in banks, savings banks, savings and loan associations and credit unions. Deposits not collateralized or insured by an agency of the federal government shall not exceed 75 percent of the capital stock and surplus in the case of a bank, 75 percent of the net worth in the case of a savings bank or savings and loan association or 50 percent of the unimpaired capital and surplus in the case of a credit union. Under state law, the District may enter into an agreement requiring collateralization in an amount equal to at least the fair value of funds deposited in excess of federal depository insurance limits.

At June 30, 2018, the District's deposits were included in a common bank account where all deposits were insured or collateralized with the exception of \$3,328,458.

#### Investments

The District is authorized by state statute to invest in obligations of the U.S. Treasury, Agencies and Instrumentalities; commercial paper rated within the three highest classifications by at least two standard rating services; obligations of states and their political subdivisions; savings accounts; certificates of deposit; time deposits; money market mutual funds; credit union shares; the Illinois Funds; and the Illinois School District Liquid Asset Fund Plus.

At June 30, 2018, the District's investments were in the Illinois Funds and the Illinois School District Liquid Asset Fund Plus.

#### **Custodial Credit Risk**

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. All of the underlying securities for the District's investments at June 30, 2018 are held by the counterparties in the District's name.

#### Credit Risk

Credit risk is the risk that an insurer of an investment will not fulfill its obligations to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's deposits with financial institutions are not subject to credit risk rating. Both the Illinois Funds and the Illinois School District Liquid Asset Fund Plus have been rated AAAm by Standard and Poor's. Credit risk exposure and investment guidelines are addressed in the District's investment policy.

#### **Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment with a single issuer. The investment policy of the District contains no limitations on the amounts that can be invested in any one issuer. Deposits with financial institutions and investments in external investment pools are exempt from the 5 percent investment in any one issuer disclosure.

#### Summary of Carrying Values

The carrying values of deposits and investments as of June 30, 2018 are as follows:

|  | 2018                 |

### Note 3: Property Taxes

The District's property tax is levied each year on all taxable real property located in the District on or before the last Tuesday in December. The 2016 levy was passed by the Board on December 13, 2016. The 2017 levy was passed by the Board on December 5, 2017. Property taxes attach as an enforceable lien on property as of January 1 and are payable in two installments on June 1 and September 1. The district receives significant distributions of tax receipts approximately one month after these due dates.

The following are the tax rate limits permitted by the School Code and by local referendum and the actual rates levied per \$100 of assessed valuation:

Current year tax receipts include tax collections of the 2016 tax levy.

#### Note 4: Common Bank Account

Separate bank accounts are not maintained for all District funds. Certain funds maintain their uninvested cash balances in a common checking account, with accounting records being maintained to show the portion of the common bank account balance attributable to each participating fund.

Occasionally, certain funds participating in the common bank account will incur overdrafts (deficits) in the account. The overdrafts result from expenditures which have been approved by the School Board. Such overdrafts constitute unauthorized interfund loans since such loans are not authorized by the Board of Education.

### Note 6: Changes in Long-Term Debt

The following is a summary of bond transactions of the District for the year ended June 30, 2018.

| Bonds payable at July 1, 2017<br>Bonds issued<br>Bonds retired | \$<br>82,775,000<br>2,204,000<br><u>3,720,000</u> |
|--|---|
| Bonds payable at June 30, 2018                                 | \$<br>81.259.000                                  |

On July 30, 2013, the District issued \$8,995,000 in General Obligation Bonds, Series 2013A and B. with interest rates ranging from 3.65 percent to 4.69 percent to replenish the Working Cash Fund and advance refund \$1,910,000 outstanding principal of the 2007 Series Working Cash and Life Safety Bonds with interest rates ranging from 4.00 percent to 4.75 percent. Net proceeds of \$2,121,805 (after \$44,408 in underwriting fees, insurance and other issuance costs) have been deposited in an irrevocable trust with an escrow agent. The escrow agent has purchased U.S. Treasury securities (State and Local Government Series), to provide for all future debt service on the \$1,910,000 advance refunded amount of the 2007 Series bonds. As a result, the \$1,910,000 advance refunded amount of the 2007 Series bonds have been removed from the government-wide statements of net position. If at any time the available proceeds of the Treasury securities and deposits on demand in the escrow account are not sufficient to make any payment due to the holders of any of the prior bonds, the escrow agent shall notify the Treasurer and the Board and the District shall make available such funds to make up the anticipated deficit. The District completed the advance refunding to levelize its tax rate over the next several years which resulted in additional debt service payments of \$505,560, an economic loss (difference between the present values of the old and new debt service payments) of \$221,841 and an accounting loss of \$211,805.

The trust account assets and the liability for the defeased bonds are not included in the District's financial statements. On June 30, 2018, \$0 of bonds outstanding are considered defeased.

Bonds payable at June 30, 2018, are comprised of the following issues:

2007 Life Safety/Working Cash Fund Bonds due in annual installments varying from \$225,000 to \$1,975,000 from 2010 through 2019; interest rates varying from 4.0 percent to 4.95 percent. \$560,000 is outstanding as of June 30, 2018, all of which is due within one year.

2011 General Obligation Bonds (Alternative Revenue Source) due in annual installments varying from \$900,000 to \$5,450,000 from 2013 to 2042; interest rates varying from 2.0 percent to 5.25 percent. \$64,825,000 is outstanding as of June 30, 2018, of which \$1,225,000 is due within one year.

2011 QZAB Series Bonds (Alternate Revenue Source) due in annual installments varying from \$100,000 to \$1,080,000 from 2021 to 2029; the interest rate is 2.25 percent. \$4,675,000 is outstanding as of June 30, 2018, of which nothing is due within one year.

2013 Series A and B General Obligation/Working Cash Bonds due in annual installments varying from \$530,000 to \$1,850,000 from 2018 to 2023; interest rates varying from 3.65 percent to 4.60 percent. \$8,995,000 is outstanding as of June 30, 2018, of which \$945,000 is due within one year.

2016 Working Cash Bonds due in annual installments varying from \$1,089,000 to \$1,115,000 from 2018 to 2019; interest rates varying from 1.75 percent to 1.89 percent. \$2,240,000 is outstanding as of June 30, 2018, of which \$1,089,000 is due within one year.

The annual requirements to amortize all debt outstanding at June 30, 2018, including interest payments of \$52,444,720 are as follows:

|           | Bonds                | Interest             | Total                 |
|-----------|----------------------|----------------------|-----------------------|
| 2019      | \$ 3,819,000         | \$ 2,127,070         | \$ 5,946,070          |

| Total     | \$ <u>81,259,000</u> | \$ <u>52,444,720</u> | \$ <u>133,703,720</u> |

The District has a legal debt margin of \$83,603,686 based on the 2017 assessed valuation of \$691,033,957.

### Note 7: Retirement Commitments

The District provides pension benefits to its employees under two separate defined benefit plans as discussed below. As discussed in Footnote 1, because the District uses a modified cash basis of accounting for financial reporting purposes, it does not report pension obligations in its basic financial statements, thus the recognition requirements for such amounts (assets, deferred outflows of resources, liabilities and deferred inflows of resources) under Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27 are not presented in the District's financial statements. However, limited footnote disclosure under GASB 68 does apply and is provided herein.

#### Illinois Municipal Retirement Fund (IMRF)

#### **Plan Description**

The District contributes to the IMRF Plan, an agent multiple-employer defined benefit pension plan covering substantially all employees. The IMRF Plan is administered by the Illinois Municipal Retirement Fund.

#### **Benefits Provided**

Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publically available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org.

The employees covered by the Plan at December 31, 2017 are:

| Inactive employees or beneficiaries currently receiving |       |
|---|-------|
| benefits  | 660   |
| Inactive employees entitled to but not yet receiving    |       |
| benefits  | 344   |
| Active employees  | 560   |
|   |       |
|   | 1,564 |

#### **Contributions**

As set by statute, the District regular plan members are required to contribute 4.50 percent of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual required contribution rate for calendar year 2017 was 11.70 percent. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

For the year ended December 31, 2017, employees contributed \$900,411 and the District contributed \$2,623,430 to the IMRF Plan. The District recognized \$2,622,591 in expenses under the modified cash basis for the year ended June 30, 2018.

#### Teachers' Retirement System of the State of Illinois

#### Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined-benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publically available financial report that can be obtained at <u>http://trsil.org</u>; by writing to TRS at 2815 West Washington Street, P.O. Box 19253, Springfield, Illinois 62794; or by calling (888) 678-3675.

#### **Benefits Provided**

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes

are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

#### Contributions

The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2017, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

**On behalf contributions to TRS.** The District meets the definition of being in a special funding situation in which the State is the nonemployer entity that is legally responsible for providing financial support for the pension of the District employees. The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2018, the State of Illinois contributions recognized by the employer were based on the State's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$3,609,402 in pension contributions from the State of Illinois.

**2.2 formula contributions.** Employers contribute .58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2018 were \$247,480.

**Federal and special trust fund contributions.** When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018. Previously, employer contributions for employees paid from federal and special trust funds will be the same as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2018, the employer pension contribution was 10.10 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2018, salaries totaling

\$2,378,570 were paid from federal and special trust funds that required employer contributions of \$240,236.

**District Retirement Cost Contributions.** Under GASB Statement No. 68, contributions that a District is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members retiring under the ERO. The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the program that ended on June 30, 2016 is 146.5 percent and applies when the member is age 55 at retirement. For the year ended June 30, 2018 there were no District ERO contributions.

The employer is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2018, the employer paid \$12,017 to TRS for employer contributions due on salary increases in excess of 6 percent and \$0 for sick leave days granted in excess of the normal annual allotment.

### Note 8: Transportation Agreement

The District has contracted its transportation needs with an outside vendor under an agreement which expires July 31, 2020. Transportation needs are provided at agreed-upon rates as specified in the contract. Total costs for transportation needs for the year ended June 30, 2018 under the agreement were \$6,018,212.

#### Note 9: Leases

The District has entered into a lease agreement that expires on July 6, 2021 for certain classroom technology. Future minimum lease payments at June 30, 2018 were:

| 2019<br>2020<br>2021<br>2022 | £ | \$<br>315,662<br>315,662<br>315,662<br>315,662 |
|------------------------------|---|--|
|                              |   | \$<br>1.262.648                                |

Lease expenditures disbursed for these agreements for the year ended June 30, 2018 were \$425,369.

#### Note 10: Contingencies

The District has received funding from state and federal grants in the current and prior years which is subject to audit and approval by the granting agencies. The Board of Education believes any adjustments that may arise from these audits will be insignificant to the District's operations.

The District is subject to claims and lawsuits that arise primarily in the ordinary course of business. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the financial position of the District.

#### Note 11: Loss Exposure

Significant losses are covered by commercial insurance for all major programs: property and liability. The District has chosen self-insurance for workers' compensation by membership in the Illinois Association of School Boards – Sponsored Workers' Compensation Self-Insurance Trust. During the year ended June 30, 2018, there were no significant reductions in coverage. Also, there have been no settlement amounts which have exceeded insurance coverage in the past three years.

#### Note 12: Postemployment Benefit Plan

The District provides postemployment benefits other than pensions (OPEB) to its retirees under two separate defined benefit OPEB plans as discussed below. As discussed in Footnote 1, because the District uses a modified cash basis of accounting for financial reporting purposes, it does not report items related to OPEB, except for OPEB expense, in its basic financial statements, thus the recognition requirements for such amounts (assets, deferred outflows of resources, liabilities and deferred inflows of resources) under Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* do not apply to the District. However, limited footnote disclosure is required under GASB 75, which was adopted by the District for the year ended June 30, 2018, and is provided herein.

#### Retiree Healthcare Plan

#### **Plan Description**

The District administers a single-employer defined benefit healthcare plan ("the OPEB Plan"). The plan provides lifetime healthcare insurance for eligible retirees and their spouses through the District's group health insurance plan, which covers both active and retired members. The OPEB Plan is administered by a board of trustees. The OPEB Plan is not administered under a qualified trust and there are no employer contributions or OPEB plan assets. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

#### **Benefits Provided**

The OPEB Plan provides healthcare benefits to eligible retirees and their spouses through the age of 65. Benefits are provided through a third-party insurer, and the full cost of the benefits is covered by the retiree. For the year ended June 30, 2018, the District recognized OPEB expense related to this plan of \$95,627.

The employees covered by the benefit terms at June 30, 2018 are:

|   | 2018 |
|---|------|
| Inactive employees or beneficiaries currently receiving |      |
| benefit payments  | 27   |
| Inactive employees entitled to but not yet receiving    |      |
| benefits  |      |
| Active employees  | 450  |
|   |      |
|   | 477  |

During the year ended June 30, 2018, the employer contributions and benefit payments are related to the increase in active premiums due to the presence of retirees in the determination of the blended retiree/active premiums and totaled \$221,198.

#### **Teacher Health Insurance Security Fund**

#### **Plan Description**

The Teacher Retirement Insurance Program of Illinois (TRIP or Plan) is a cost-sharing multipleemployer defined benefit postemployment healthcare plan that covers retired employees of participating school districts throughout the State of Illinois, excluding the Chicago Public School System. TRIP health coverage includes provisions for medical, prescription, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits. Annuitants may participate in the State administered Preferred Provider Organization plan or choose from several managed care options. TRIP is administered in accordance with the State Employees Group Insurance Act of 1971 (5 ILSC 375/6.5) which establishes the eligibility and benefit provisions of the plan.

Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pensions, defines special funding situations as circumstances in which a nonemployer entity is legally responsible for providing financial support for OPEB (other postemployment benefits) of the employees of another entity by making contributions directly to an OPEB plan that is administered through a trust that meets the criteria set forth in GASB 75 and either (1) the amount of contributions or benefit payments for which the nonemployer entity legally is responsible is not dependent

upon one or more events or circumstances unrelated to the OPEB or (2) the nonemployer entity is the only entity with a legal obligation to provide financial support directly to an OPEB plan that is used to provide OPEB to employees of another entity. The State of Illinois is considered a nonemployer contributing entity and the plan is deemed to have a special funding situation.

#### **Benefits Provided**

The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50 percent or 75 percent, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100 percent of the cost of coverage.

A summary of the postemployment benefit provisions, changes in benefit provisions, employee eligibility requirements including eligibility for vesting, and the authority under which benefit provisions are established are included as an integral part of the financial statements of the Department of Central Management Services. A copy of the financial statements of the Department may be obtained by writing to the Department of Central Management Services, 401 South Spring Street, Springfield, Illinois, 62706.

#### Contributions

The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) requires that all active contributors of the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.12 percent of salary and for every employer of a teacher to contribute an amount equal to .84 percent of each teacher's salary. The Department determines, by rule, the percentage required, which each year shall not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the Teachers' Health Insurance Security Fund (THISF), an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The District meets the definition of being in a special funding situation in which the State is the nonemployer entity that is legally responsible for providing financial support for OPEB of the District employees and that the State's proportionate share of the collective net OPEB liability is 52.129759 percent. The state of Illinois makes employer retiree contributions on behalf of the District. State contributions are intended to match contributions to the fund from active members. State of Illinois contributions were \$432,906 and the District recognized revenues and expenditures of this amount during the year. The employer contribution was .88 percent or \$322,845 for the year ended June 30, 2018.

The OPEB plan contributions for the two plans were \$755,751 for the teacher health insurance plan and \$221,198 for the retiree healthcare plan.

### Note 13: Significant Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant current vulnerabilities due to certain concentrations. Those matters include the following:

#### **Current Economic Conditions**

The current economic environment presents school districts with difficult circumstances and challenges, which in some cases have resulted in large declines in the fair value of investments and other assets, declines in governmental support, grant revenue and tax revenue, constraints on liquidity and difficulty obtaining financing. The financial statements have been prepared using values and information currently available to the District.

Current economic conditions have made it difficult for many districts. A significant decline in governmental support, grant revenue and tax revenue could have an adverse impact on the District's future operating results.

In addition, given the volatility of current economic conditions, the values of assets and liabilities recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the District's ability to maintain sufficient liquidity.

#### Labor Agreement

A large percentage (87 percent) of the District's employees are covered by collective bargaining agreements. Collective bargaining agreements covering approximately 24 percent of these employees expire within the next year.

#### Note 14: Facilities Occupation Sales Tax

Macon County, Illinois imposed a 1 percent county sales tax effective July 1, 2011, which is to be used exclusively for school facility purposes. The District received \$5,214,352 from this tax during the year ended June 30, 2018, which has been budgeted to address current and future building improvement needs.

### Note 15: Health Insurance Plan

Effective January 1, 2014, the District became a member and participates in the Education Benefits Cooperative (Cooperative) for employee health insurance coverage. The Plan is a self-funded plan and administration is provided through a third-party administrator. The Plan also carries specific stop-loss insurance at such levels as approved by the Cooperative's Board of Directors. Benefits are paid directly from the Plan through a claims administrator, while Plan contributions are made by the District at a rate determined by the Cooperative annually.

23. If the type of Auditor Report designated on the cover page is other than an unqualified opinion and is due to reason(s) other than solely Cash Basis Accounting, please check and explain the reason(s) in the box below.

#### PART D - EXPLANATION OF ACCOUNTING PRACTICES FOR LATE MANDATED CATEGORICAL PAYMENTS

(For School Districts who report on an Accrual/Modified Accrual Accounting Basis only)

School districts that report on the accrual/modified accrual basis of accounting must identify where late mandated categorical payments (Acct Codes 3100, 3105, 3110, 3500, 3510, 3120, 3950) are recorded. Depending on the accounting procedure these amounts will be used to adjust the Direct Receipts/Revenues in calculation 1 and 2 of the Financial Profile Score. In FY2018, identify those late payments recorded as Intergovermental Receivables, Other Recievables, or Deferred Revenue & Other Current Liabilities or Direct Receipts/Revenue. Payments should only be listed once.

24. Enter the date that the district used to accrue mandated categorical payments

Date:

25. For the listed mandated categorical (Revenue Code (3110, 3500, 3510, 3100, 3105) that were vouchered prior to June 30th, but not released until after year end as reported in ISBE FRIS system, enter the amounts that were accrued in the chart below.

# Current Year Payment on Contracts For Indirect Cost Rate Computation

### Instructions:

This schedule is to calculate the amount allowed on contracts obligated by the school district for the Indirect Cost Rate calculation. The greatest amount allowed in the indirect cost calculation is \$25,000 for each contract. The contracts should be only for purchase services and not for salary contracts.

1. In column (A) enter the name of the Fund-Function-Object of the account\_where the payment was made on each contract in the current year.

2. In column (B) enter the number of the Fund-Function-Object (use this format [00-0000-000]) of the account where the payment was made on each contract for the current year. Use only the functions listed on page 30.

3. In Column (C) enter the name of the Company that is listed on the contract.

4. In column (D) enter the total amount paid in the AFR for the contract. The amount must be equal to the amount reported in the AFR's "Expenditures 15-22" tab.

5. Column (E) and (F) are calculated automatically based on the information provided in Columns (A through D).

6. The amount in column (E) is the amount allowed on each contract in the Indirect Cost Rate calculation. The amount in column (F) is the amount that will be deducted from the base in the indirect cost

#### Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance

#### Independent Auditor's Report

Board Education Decatur School District No. 61 Decatur, Illinois

#### **Report on Compliance for Each Major Federal Program**

We have audited Decatur School District No. 61's (District) compliance of with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, contracts and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, Decatur School District No. 61, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

#### **Report on Internal Control Over Compliance**

Management of Macon-Piatt Special Education District, a component unit of Decatur School District No. 61, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency or a combination of deficiency, or a combination of deficiency, or a combination of deficiency and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards

We have audited the basic financial statements and related notes of Decatur School District No. 61, as of and for the year ended June 30, 2018, and have issued our report thereon dated October 18, 2018, which expressed an adverse opinion because of departures from accounting principles generally accepted in the United States of America. Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Decatur School District No. 61 Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2018

#### **Notes to Schedule**

- 1. The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2018. The accompanying notes are an integral part of this Schedule. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.
- 2. Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

• (M) Program was audited as a major program as defined by §200.518.

\*Include the total amount provided to subrecipients from each Federal program. §200.510 (b)(4).

The accompanying notes are an integral part of this schedule.

<sup>1</sup> To meet state or other requirements, auditees may decide to include certain nonfederal awards (for example, state awards) in this schedule. If such nonfederal data are presented, they should be segregated and clearly designated as nonfederal. The title of the schedule should also be modified to indicate that nonfederal awards are included.

<sup>2</sup> When the CFDA number is not available, the auditee should indicate that the CFDA number is not available and include in the schedule the program's name and, if applicable, other identifying number.

<sup>3</sup> When awards are received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity must be included in the schedule. §200.510 (b)(2) <sup>4</sup> The Uniform Guidance requires that the value of federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end be included in the schedule and suggests to include the amounts in the SEFA notes.

# • (M) Program was audited as a major program as defined by §200.518.

\*Include the total amount provided to subrecipients from each Federal program. §200.510 (b)(4).

## The accompanying notes are an integral part of this schedule.

- <sup>1</sup> To meet state or other requirements, auditees may decide to include certain nonfederal awards (for example, state awards) in this schedule. If such nonfederal data are presented, they should be segregated and clearly designated as nonfederal. The title of the schedule should also be modified to indicate that nonfederal awards are included.
  - <sup>2</sup> When the CFDA number is not available, the auditee should indicate that the CFDA number is not available and include in the schedule the program's name and, if applicable, other identifying number.
- <sup>3</sup> When awards are received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity must be included in the schedule. §200.510 (b)(2) <sup>4</sup> The Uniform Guidance requires that the value of federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end be included in the schedule and suggests to include the amounts in the SEFA notes.

(M) Program was audited as a major program as defined by §200.518.

\*include the total amount provided to subrecipients from each Federal program. §200.510 (b)(4).

The accompanying notes are an integral part of this schedule.

<sup>1</sup> To meet state or other requirements, auditees may decide to include certain nonfederal awards (for example, state awards) in this schedule. If such nonfederal data are presented, they should be segregated and clearly designated as nonfederal. The title of the schedule should also be modified to indicate that nonfederal awards are included.

<sup>2</sup> When the CFDA number is not available, the auditee should indicate that the CFDA number is not available and include in the schedule the program's name and, if applicable, other identifying number. <sup>3</sup> When awards are received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity must be included in the schedule. §200.510 (b)(2)

<sup>4</sup> The Uniform Guidance requires that the value of federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end be included in the schedule and suggests to include the amounts in the SEFA notes.

# • (M) Program was audited as a major program as defined by §200.518.

\*Include the total amount provided to subrecipients from each Federal program. §200.510 (b)(4).

The accompanying notes are an integral part of this schedule.

- <sup>1</sup> To meet state or other requirements, auditees may decide to include certain nonfederal awards (for example, state awards) in this schedule. If such nonfederal data are presented, they should be segregated and clearly designated as nonfederal. The title of the schedule should also be modified to indicate that nonfederal awards are included.
  - <sup>2</sup> When the CFDA number is not available, the auditee should indicate that the CFDA number is not available and include in the schedule the program's name and, if applicable, other identifying number.
- <sup>3</sup> When awards are received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity must be included in the schedule. §200.510 (b)(2) <sup>4</sup> The Uniform Guidance requires that the value of federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees
  - outstanding at year end be included in the schedule and suggests to include the amounts in the SEFA notes.

<sup>7</sup> If the audit report for one or more major programs is other than unmodified, indicate the type of report issued for each program. Example: "Unmodified for all major programs except for [name of program], which was modified and [name of program], which was a disclaimer."

<sup>8</sup> Major programs should generally be reported in the same order as they appear on the SEFA.

<sup>9</sup> When the CFDA number is not available, include other identifying number, if applicable.

<sup>10</sup> The name of the federal program or cluster should be the same as that listed in the SEFA. For clusters, auditors are only required to list the name of the cluster.

<sup>11</sup> A suggested format for assigning reference numbers is to use the digits of the fiscal year being audited followed by a numeric sequence of findings. For example, findings identified and reported in the audit of fiscal year 2018 would be assigned a reference number of 2018-001, 2018-002, etc. The sheet is formatted so that only the number need be entered (1, 2, etc.).

<sup>12</sup> Provide sufficient information for judging the prevalence and consequences of the finding, such as relation to universe of costs and/or number of items examined and quantification of audit findings in dollars.

<sup>13</sup> See §200.521 Management decision for additional guidance on reporting management's response.
